This site is not a substitute for medical or health care advice and does not serve as a recommendation for a particular provider or type of medical or health care. Visit [Fair Health](#) for out-of-network provider estimates. For state specific information, go [here](#). Before scheduling an appointment or receiving services, please check with the provider and your health plan to confirm that the provider is participating, that the service is covered, and the costs that you may be charged for the service. The directory is updated weekly. If you think any information in the directory is inaccurate, let us know by clicking on 'Report Incorrect Information' on that provider's page, or calling the number on your health plan member ID card.

- As a Medicaid member, you will likely have to pay little or nothing for the covered care you receive.
- Whether services are covered will depend on your health plan and medical needs.

The cost estimates on this page are based on average charges for in-network providers within a specific geographic market. Your actual costs may be higher or lower than these cost estimates as a result of changes in the provider’s contract or status, additional services that arise during the course of treatment, or for other reasons. Check with your provider and health plan details to confirm the costs that you may be charged for a service or procedure. You are responsible for costs that are not covered and for getting any pre-authorizations or referrals required by your health plan. Neither payments nor benefits are guaranteed.

Patient Reviews are statements of opinion and brought to you by Healthgrades.
